

Summary

Enthusiastic Software Engineer with hands-on experience at Heapwera in web development and mobile app development. Skilled in building responsive web applications using React.js, Next.js, and WordPress, and developing cross-platform mobile apps with Flutter. Passionate about creating efficient, user-friendly digital solutions and continuously learning modern technologies.

Skills

Frontend Development: React.js, Next.js, HTML, CSS, JavaScript

Mobile App Development: Flutter, React Native

Web Development: WordPress (Theme Customization, Plugin Integration)

Languages: C, C++, Python, Dart, JS, HTML, CSS, Tailwind

Frameworks: Flutter, React.js, Next.js, WordPress

Backend: Firebase, Express.js, MongoDB

Education

BS Software Engineering — Minhaj University Lahore (2021 – 2025)

Experience

- Developed cross-platform mobile apps using Flutter, implementing responsive UI and backend integration with Firebase and REST APIs.
- Built dynamic web applications using Next.js, focusing on server-side rendering, React components, and API integrations.
- Created and managed WordPress websites, including theme customization, plugin integration, and content management.
- Collaborated in full-stack projects, handling frontend design, backend logic, and database management (MySQL, PostgreSQL, Firebase).
- Worked with version control systems (Git), Agile workflows, and team collaboration tools for project management.
- Optimized application performance, improving load times and responsiveness across web and mobile platforms.
- Implemented responsive designs and UI/UX improvements to enhance user experience across devices.
- Provided technical support and troubleshooting for deployed applications, ensuring smooth operation and bug fixes.

Projects

- Slack (Chat App):** Built a real-time chat application with Flutter and Firebase, featuring user authentication, chat rooms, and live messaging.
- Kisankaar App:** Built a real-time application with Flutter and Firebase, featuring user authentication.
- Notes App:** Created a cross-platform mobile app for note-taking using Flutter with local database integration.
- Ideoversity LMS (UI):** Developed and maintained a learning management system with Next.js and REST APIs for course and user management.
- Personal Portfolio:** Designed and deployed a personal portfolio website — <https://my-portfolio-six-chi-91.vercel.app/>.
- Hselectronics (UI):** Designed a modern UI for an electronics company website — hselectronics.com.
